EDUCATION

BSc in Informatics and Telecommunications

University of Peloponnese, Tripoli

Undergraduate Thesis: 'Development of a Medical Data Collection and Monitoring System'

PROFESSIONAL EXPERIENCE

Venue Technology Coordinator – Special Olympics World Games

Bluxogen GmbH, Berlin, Germany (April 2023 – June 2023)

- Led all IT operations for the tennis venue during the 2023 Special Olympics World Games.
- Ensured seamless event technology execution across hardware, software, and network infrastructure.
- Managed internal applications, internet connectivity, email systems, and rapid issue resolution.
- Acted as first point of contact for any technical disruption during match days, ensuring minimal downtime.

Backend & Frontend Developer (IBM Project)

ManpowerGroup Greece (on behalf of IBM), Athens, Greece (August 2023 – December 2023)

- Developed banking software systems for Alpha Bank (loans and accounts).
- Technologies: Java, Spring Boot, HTML, CSS, XML, JS, TS, SQL.
- Integrated backend services with responsive frontend interfaces using IBM systems.
- Participated in Agile sprints, documentation and testing.

First-Level Support Officer

Cosmote E-Value, Athens, Greece (January 2021 – August 2021)

- Provided technical support for Cosmote clients.
- Diagnosed and resolved network and hardware issues.
- Escalated critical incidents and maintained client satisfaction.

IT Helpdesk Intern

Public Power Corporation S.A. (ΔΕΗ Α.Ε.), Athens, Greece (August 2021 – October 2021)

- Delivered user support through manuals and in-app systems.
- Monitored forums and maintained documentation.
